Conference Agenda #1

This is the initial overview edition of the agenda for MRI Ascend London 2020. Updated versions will be released as the date of the conference draws closer, but we can confirm there will be more than 60 sessions on offer over the course of the two days covering product updates, industry insight, Partner demonstrations and company updates. There will also be time scheduled to explore the MRI Ecosystem and chance to network with delegates, as well as lunch, a number of breaks for refreshments and evening entertainment on Wednesday.

AGENDA OVERVIEW

Conference welcome: Updates from MRI Software's executive leadership team on global and regional developments at the company, and how these have been introduced to better serve and support our clients. Learn more about the evolution of our innovative open platform and how our comprehensive technology suite is helping organisations navigate trends and challenges in the industry.

Keynote address: Fascinating insight and valuable business lessons in an engaging and informative address delivered by our guest keynote speaker. Previous presenters at our London client conference include renowned broadcaster and journalist John Sergeant and Olympic gold medal-winning hockey stars Kate and Helen Richardson-Walsh.

Product overviews and workshops:

The latest developments, functionality enhancements and new features within our solution suite. Explore the full capabilities of the products you utilise before taking a deeper dive into specific focus areas, including best practice, hints and tips, advanced use and user navigation. Full programmes are to be confirmed, but will cover the following products:

MRI Agency Solutions

MRI Agency Central,
MRI RADAR/APR,
MRI Sales & Lettings

MRI Commercial Management

MRI Horizon

MRI Horizon CRE

MRI Investment Suite

MRI Planet

MRI Qube Property Management

MRI Residential Management

Industry insight: Expert analysis on key themes and trends in real estate. Hear from senior figures at MRI Software, client representatives and industry thought-leaders on a number of subjects including:

Build-to-Rent

What the staggering growth in this sector means for the wider UK residential market.

Commercial property management

Exploring the challenges faced by the owners and managers of commercial premises.

Estate and letting agencies

What agencies are doing to both survive and thrive in today's complex environment.

Facilities and workplace management

How organisations are extracting maximum value and efficiency from their property portfolios.

Lease management and accounting

How technology is driving collaboration in the processing and accounting of property and equipment leases.

Propetch

Investigating the latest and greatest technology innovations benefitting the real estate industry.

Real estate investment

How investors can minimise risk and maximise returns in an increasingly volatile environment.

Residential property management

How residential managers are adapting to changes in the UK rental and leasehold sectors.

Retail

How technology can drive collaboration between owners and tenants in the sector.

Partner sessions: A range of presentations and demonstrations hosted by members of the Partner Connect network, offering delegates the chance to discover the benefits of complementary solutions and services available in our wider technology ecosystem.
